

Operations Management System Fact Sheet

Operation Management Systems

Synengco offers the following operation management systems:

- Provision of SentientSystem® performance and plant analysis;
- Production statistics reporting;
- Loss of availability systems;
- Plant and equipment logging systems; and
- Shift report systems.

Engineering Services

Synengco also performs the owner engineer role for the:

- Management and review of performance and equipment testing;
- Review and audit of designs and projects; and
- Conceptual design and feasibility studies.

Our expertise

Synengco's people and technologies operate at the coalface in various industries across the globe. We are world specialists in information intensive systems.

Our Operations Management System technologies are powered by Synengco's world leading software, SentientSystem®.

In recognition of the contribution it made to the advancement of technology, SentientSystem® was accredited to the Australian Technology Showcase in 2001 and again in 2007.

The payback Period

Synengco's technology effectively pays for itself. Clients have experienced payback periods ranging from 6 to 18 months.
